EDUCATION

Cornell University, College of Engineering — **Ithaca, NY**
Bachelor of Science, Mechanical Engineering — *Expected May 2027*
GPA: 3.520

Relevant Courses: Dynamics, Thermodynamics, Heat Transfer, Mechatronics, Physics I-III, Fluid Mechanics, Propulsion Aircrafts & Rockets, Mechanics of Materials, Mechanical Design, Systems Dynamics, Bio Comparative Physiology

PROFESSIONAL EXPERIENCE

Dominion Energy, *Distribution Operations Engineering Intern* — **Norfolk, VA**
Summer 2025, Summer 2026

- Updated and validated the Distribution Grid (DG) database to improve device mapping accuracy and outage reporting.
- Analyzed transformer loading to identify overload conditions and verify alarm performance.
- Assessed load shifts for planned outages and abnormal switching orders to support reliable grid operations.
- Selected to attend Dominion Energy's Careers in Energy Diversity Student Conference, engaging with industry professionals and participating in technical and professional development sessions.

LEADERSHIP AND VOLUNTEER EXPERIENCE

Men's Varsity Track and Field, *Co Leader* — **Cornell University**
Aug 2025-Present

- Organized and communicated team schedules, events, and meet details to improve team coordination.
- Provided mentorship and support to underclassmen to promote personal and athletic development.
- Demonstrated leadership and commitment by modeling discipline and a positive team culture.

Trees Up Tompkins, *Volunteer* — **Ithaca, NY**
Aug 2023-Present

- Assisted with vegetation clearing, tree planting, and habitat restoration efforts to support the preservation of Ithaca's native trees and local ecosystem.

PROJECT EXPERIENCE

Mechanical Design Project, Cornell University — **Cornell University**
Jan-May 2025

- Design and construction of a lightweight storage container that helps individuals perform on the go construction tasks.
- Developed the concept used for our tape measurer mechanism as well as designing an accessible screw bit tool.

Cornell Mechatronics Competition — **Cornell University**
Jan 2026-May 2026

- Design, fabricate, and program a C++ autonomous robot using mechatronics principles to collect and transport cubes in a timed head-to-head competition.
- Design and construction of the autonomous robot, schedule management, and coding peer checker.

CAMPUS INVOLVEMENT

National Society of Black Engineers, *Member* — *Aug 2023-Present*
Men of Color in Athletics (MOCA), *Member* — *Aug 2024-Present*
Red Key Athlete Honor Society, *Member* — *April 2026-Present*

CERTIFICATIONS

Project Lead the Way (PLTW): Industry Certifications — **Suffolk, VA**

- Digital Electronics — *June 2022*
- Civil Engineering & Architecture — *June 2022*
